NEWS FOR IMMEDIATE RELEASE

David Davis Communications Inc. Receives Unified Communication Industry's Top Awards

Technology Assurance Group Recognizes David Davis as the Elite Provider at its 2009 National Convention

FINLEYVILLE, PA — June 24, 2009— David Davis, a leading unified communications provider, announced today that the company received two of Technology Assurance Group's top awards at the association's 2009 National Convention held in San Diego in March. Technology Assurance Group (TAG), an international organization of independently owned unified communications companies in the United States and Canada, selected David Davis as the winner of the "Excellence in Sales Performance Award" and "Chairman's Bronze Circle Award" for exceptional economic performance and superior customer satisfaction. David Davis was highlighted as a premier provider during a prestigious awards ceremony attended by TAG's Member companies and leading technology manufacturers.

The highly sought after awards, which are given out annually, are based on overall financial performance, customer satisfaction, and the ability to provide customers with cost effective unified communication solutions. "In 2008, David Davis experienced phenomenal growth that propelled them past the best companies in the industry," said Dale Johnson, president of Technology Assurance Group. David Davis' philosophy of providing technology solutions that increase their customers' profitability, improve employee productivity, and enhance brand image fueled the company's overall success. In addition to offering solutions with the purpose of accomplishing their customers' business objectives, they maintain a highly talented team of professionals that deliver world class service. David Davis is an exceptional Member that is dedicated to acquiring better business practices that continually

improve their organization. It was our privilege to showcase such a fine company at our convention.”

David Davis, President of David Davis Communications, accepted the awards for the company. “We have worked extremely hard over the years to build a great company with a solid reputation in our community and it was a wonderful feeling to be recognized by TAG. David Davis’ customer centric focus as well as our ability to stay on the pulse of technology have enabled us to become our customers’ trusted advisor. We attribute much of our success to the many benefits that we receive from our Membership in TAG. The organization enables us to quickly adopt new ways of doing business for the betterment of our customers and our people.”

David Davis offers businesses a variety of unified communication solutions including managed services, telephone systems, local/long distance service, Internet connectivity, web conferencing, teleconferencing, call accounting, and Voice over IP (VoIP).

ABOUT DAVID DAVIS

David Davis Communications has a long history in the telecommunications industry. We have been selling, installing, training and servicing telecommunications equipment since 1983. Our commitment is to provide our customers with the most reliable service, as well as cost efficient telephone equipment and services available. "Your personal satisfaction is guaranteed."

We can provide professional services for all of your telephone, voicemail, multi media contact center, network and cabling needs. If you have previously felt frustrated with the competence and abilities of former suppliers or services, or you are looking for a trustworthy telecommunications provider that you can hold accountable, please place our company at the top of your list. We pride ourselves in the professionalism and determination of our installation experts. We get the complete job done right on our first visit, as to not cause a breakdown in your business communications. Our creditability is noteworthy.

We offer our expertise in dealing with local and long distance telephone service and internet circuits to recommend and implement solutions that meet your company's communication needs. Whether adding a new line to an existing business or using circuits to create a Wide Area Network across the world, we will manage the process from proposing a solution to installing the system, training employees, and servicing any problems that may arise.

We believe training is the key to designing a communication system to meet the demands of your business and our goal is to provide you with the latest proven technology that not only meets those demands, but shows you how technology can "work" for you. Our highly skilled technicians are trained on a regular basis which allows us to train you, our business partners,

how to use technology to move your business forward and receive a 'return on investment.' That's why we have implemented our Ask About series....., a series of informational brochures that will keep you abreast of advances in communications, help move your business forward and educate you on how to use technology to benefit your business.

Our combined office and technical staff are employees not subcontractors, and we have a vested interest in you, the customer. We aren't a distant voice on the telephone and we understand your specific needs. We talk in a language that you can understand, and we will meet your satisfaction each and every time.

David Davis Communications can provide maintenance service on Avaya, ESI, AT&T and Lucent equipment during and after the warranty period, regardless of who originally supplied the equipment. We are certified to sell and service the above mentioned brands, and will do so with efficiency and knowledge. We can use our extensive knowledge base of these brands to come to your office and train your employees, even if your system was not newly purchased. Our company can work with you to develop a maintenance and warranty agreement for your existing equipment, and can create a simple payment plan for these services.
